

# TransferRite® PM-50

## PRODUCT DESIGN

TransferRite PM-50 (Paint Mask) is a 3.4 mil yellow flexible matte calendared vinyl film specifically designed with a removable acrylic adhesive.

## APPLICATION

TransferRite PM-50 is formulated for ease of cutting while retaining resistance to common solvents like those in spray paints and automotive finishes. A removable acrylic adhesive provides enough tack to withstand edge lifting while removing cleanly. The #78 bleached kraft liner provides a substantial base for plotter cut graphics. PM-50 is recommended for use with TransferRite 592U high tack application tape. PM-50 is available in 50 yard rolls, 15"/30" punched and 30" unpunched.

## PERFORMANCE FEATURES

- Cuts and weeds easily
- Conforms to compound curves
- Does not break into pieces upon removal
- Residue free

PHYSICAL PROPERTIES	VALUE
Colors	Yellow
Nominal Thickness	3.4 mils (0.09 mm)
Adhesion (@90°)	8 oz/in (2 N/25 mm)

All product properties are measured in accordance with Pressure Sensitive Tape Council and/or ASTM test methods. The physical properties listed above are typical values and are not to be construed as specifications. Our suggestions and recommendations for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for his intended use. American Bilrite assumes no liability for claims beyond the replacement value of our product proved to be defective. American Bilrite Inc.
